Maintenance Foreman: Aaron Morris

I hope everyone is adjusting to the rising temperatures. Staff has been doing a great job keeping up with the current work load and they have been doing an amazing job assisting in the District's current projects.

- Staff fertilized all the baseball fields and the Day Use Meadow up in Bogart Park.
- Arbor Day was a hit with 15 locally donated trees and 10 donated by the District with a total of 25 trees. All of the trees were planted in the Bogart Day Use Meadow and a new circuit was also installed to help water the trees surrounding the playground.
- Maintenance assisted in setting up and tearing down the recent Cinco de Mayo Event.
- All of the central sprinklers in the Soccer Meadow here at Noble Creek were replaced with modern heads to help distribute the water efficiently and effectively throughout the turf.
- Aaron met with Erik Anderson from Site One to plan the installation of the Flow Sensor Meter up at the 4 inch irrigation backflow device.
- Both canopy structures in the Bogart Day Use Meadow are still under construction.
- Trash enclosures were built on the East side of Noble Creek Park behind the large snack bar and the Maintenance Yard's trash enclosure was raised up.
- The Grange Hall had chain-link fencing installed on the East property line, and the Southern fencing is still undergoing construction.
- Staff is planning to set up our water tank with telemetry to help monitor our water usage from the well.
- I tested for my QAC to add the category F (Aquatic Pesticides) and passed.

Athletic Coordinator: Dodie Carlson

- The spring season started on Monday April 4, 2022. We have 6 Women's, 7 Men's, 12 Thursday Co-ed, and 9 Sunday Co-ed teams this season. The spring season will be wrapping up in mid-June and the summer season will be starting 1st week of July.
- BYB spring season is nearing completion; the park has been very busy with a lot of activity. Games, practice, fans, and spectators. The All –star season will begin on May 23rd, 2022 the park will continue to be busy with practices.
- The calendar remains very slow due the lack of staff for tournaments. Hopefully we can get some help as things start to loosen up.
- I would like to thank the Board of Directors, General Manager, and staff for their constant work for this district. I would like to thank the maintenance staff for their constant work on field improvements, while they continue to battle the gophers and squirrels. The fields are improving every week.
- BYB season is in the playoff part of the season. Championship games and closing day will be on May 21, 2022, BYB would love to see the board members there. Games will start at 9am and closing ceremonies will be at 3:00pm.

General Manager: Duane Burk

Duane gave an update on the staff picnic of June 10, 2022 and the employee newsletter. He attended City of Beaumont and City of Calimesa council meetings via YouTube and Facebook. Duane reported that he spoke with Lafco and the City of Beaumont regarding the annexation of the partial to the City of Beaumont in the MOU and came to the conclusion that the recommendation will likely be denied. He is looking forward to the upcoming 3rd Annual Foundation golf tournament. He is very appreciative of the award he received and gave great thanks. Duane spoke with the Yucaipa Valley Water District regarding the sewer connection and also spoke with the San Gorgonio Pass Water Agency regarding the land next to the Noble Creek Regional Park.

STAFF REPORT

Item 3.1

To: Chairman and Board of Directors

From: Duane Burk, General Manager

Re: Resolution # 2022-01. AA RESOLUTION OF THE BOARD OF DIRECTORS OF THE BEAUMONT-CHERRY VALLEY RECREATION AND PARK DISTRICT ACCEPTING THE TRANSFER OF APPROXIMATELY 121 ACRES OF LAND FROM THE BEAUMONT-CHERRY VALLEY RECREATION AND PARK IMPROVEMENT CORPORATION AND ACCEPTING THE ASSUMPTION OF A SEWER LINE EASEMENT FROM THE BEAUMONT-CHERRY VALLEY RECREATION AND PARK IMPROVEMENT CORPORATION

Date: June 8, 2022

Background and Analysis:

On December 31, 2020, the Beaumont-Cherry Valley Recreation and Park Improvement Corporation ("Foundation") received a donation from TSG Cherry Valley, L.P. ("Donation Agreement") of approximately 123 acres of land (the "Property") for the Foundation to operate consistent with its mission, and the mission of the Beaumont-Cherry Valley Recreation and Park District ("District"), of providing community recreation and park facilities and programs. The Property is located in unincorporated Riverside County, which is bordered to the north by undeveloped foothills, to the west by warehouse logistics buildings, to the east by a single family residential/agricultural property, and to the south by Cherry Valley Boulevard.

The Property, as of December 31, 2020, had an estimated value of \$8.325 Million based on a recent appraisal. The Property contains a functional water well that pumps water.

On June 8, 2022, the Foundation passed a Resolution authorizing the transfer of approximately 121 acres of the Danny Thomas Ranch to the District, and authorizing the assignment of a sewer line easement benefiting it under the Donation Agreement to the District. The Foundation did not transfer approximately 2 acres of the Danny Thomas Ranch that contains the single family residence.

The District desires to accept the transfer of the portion of the Property and to assume the sewer line easement.

Fiscal Impact:

The District will gain approximately \$7-\$8 Million dollars' worth of land.

Recommendations:

Staff recommends that the Board review, comment, approve or change Resolution # 2022-01, authorizing the acceptance of the transfer of approximately 121 acres of the Danny Thomas Ranch to the District and authorizing the assumption of a sewer line easement.

Certificate of Acceptance

RESOLUTION NO. 2022-01

- A RESOLUTION OF THE BOARD OF DIRECTORS OF THE BEAUMONT-CHERRY VALLEY RECREATION AND PARK DISTRICT ACCEPTING THE TRANSFER OF APPROXIMATELY 121 ACRES OF LAND FROM THE BEAUMONT-CHERRY VALLEY RECREATION AND PARK IMPROVEMENT CORPORATION AND ACCEPTING THE ASSUMPTION OF A SEWER LINE EASEMENT FROM THE BEAUMONT-CHERRY VALLEY RECREATION AND PARK IMPROVEMENT CORPORATION
- WHEREAS, the Beaumont-Cherry Valley Recreation and Park Improvement Corporation (the "Foundation") is a 501(c)(3) nonprofit public benefit corporation existing under and pursuant to the laws of the State of California; and
- WHEREAS, the Foundation exists to benefit the Beaumont-Cherry Valley Recreation and Park District ("District"), a California recreation and park district; and
- **WHEREAS**, on December 31, 2020, the Foundation received a donation from TSG Cherry Valley, L.P. ("Donation Agreement") of approximately 123 acres of land (the "Property") for the Foundation to operate consistent with its mission, and the mission of the District, of providing community recreation and park facilities and programs; and
- WHEREAS, the Property is located in unincorporated Riverside County, which is bordered to the north by undeveloped foothills, to the west by warehouse logistics buildings, to the east by a single family residential/agricultural property, and to the south by Cherry Valley Boulevard, and is more particularly described and shown in the Donation Agreement, attached hereto and incorporated herein as Exhibit A; and
- **WHEREAS**, the Property consists of Riverside County Assessor Parcel Nos. 407-200-011-1, 407-210-001-3 (portion), 407-210-001-3 (portion), 407-200-009-0, 407-210-004-6, 407-210-002-4, and 407-200-012-2; and
- WHEREAS, the Property contains a single family residence and several agricultural buildings, which are located at 37300 and 37356 Cherry Valley Boulevard, Beaumont, CA 92223, which are not proposed being transferred to the District at this time; and
 - WHEREAS, the Property contains a functional water well that pumps water; and
- **WHEREAS**, as of December 31, 2020, the Property had an estimated value of \$8.325 Million based on a recent appraisal; and
- WHEREAS, on June 8, 2022, the Foundation Board of Directors passed a Resolution authorizing the transfer of the Property, minus the single family residence, which in total comprises approximately 121 acres, to the District (hereinafter, the "Transfer"), which is more particularly shown in Exhibit A; and

- WHEREAS, on June 8, 2022, the Foundation Board of Directors passed a Resolution authorizing the assigning of a sewer line easement benefitting it under the Donation Agreement to the District.
- **NOW, THEREFORE,** it is resolved by the Board of Directors of the Beaumont-Cherry Valley Recreation and Park District as follows:
- SECTION 1. <u>Incorporation of Recitals</u>. The recitals above are true and correct and are hereby incorporated herein by this reference.
- SECTION 2. <u>Property Transfer</u>. The President of the Board of Directors, the General Manager or a designee in writing (each, an "Authorized Officer") is hereby authorized to execute any and all documents necessary for the Transfer of approximately 121 acres of the Danny Thomas Ranch to the District, subject to final approval as to form by the District's legal counsel.
- SECTION 3. <u>Sewer Line Easement Assumption</u>. The President of the Board of Directors, the General Manager or a designee in writing (each, an "Authorized Officer") is hereby authorized to execute any and all documents necessary for the assumption of the sewer line easement the Foundation is entitled to under the Donation Agreement (the "Assumption"), subject to final approval as to form by the Foundation's legal counsel.
- SECTION 4. <u>Certificate of Acceptance</u>. The President of the Board of Directors, the General Manager or a designee in writing (each, an "Authorized Officer") is hereby authorized to execute the Certificate of Acceptance, accepting the Transfer and the Assumption from the Foundation, subject to final approval as to form by the District's legal counsel, a copy of which is attached hereto as Exhibit B.
- Section 5. <u>CEQA</u>. The District finds that the Transfer and the Assumption are not subject to review under the California Environmental Quality Act ("CEQA") because they are not a "project" under State CEQA Guidelines section 15378(a) or 15004(b)(2)(A). In addition, if these actions were to be considered a project under CEQA, they are categorically exempt from further CEQA review under State CEQA Guidelines sections 15301 (existing facilities). In addition, the Transfer and Assumption are exempt under section 15061(b)(3) as it can be seen with certainty that there is no possibility that these actions may have a significant effect on the environment. The Transfer and Assumption merely involve a change of ownership and no development is proposed. None of the exceptions to these categorical exemptions apply, and consequently, these actions are exempt from further CEQA Review.
- Section 6. <u>Attestations</u>. The Secretary of the Board or other appropriate Foundation officer is hereby authorized and directed to attest the signature of the Authorized Officer, and to affix and attest the seal of the Foundation, as may be required or appropriate in connection with the execution and delivery of any and all required documents to effectuate the Transfer and Assumption.
- Section 7. Other Actions. The Authorized Officer and other officers of the Foundation are each hereby authorized and directed, jointly and severally, to take any and all actions and to execute and deliver any and all documents, agreements, and certificates which they may deem

necessary or advisable in order to carry out and give effect to this Resolution and any other documents required to effectuate the Transfer and Assumption.

Section 8. Effect. This Resolution shall take effect immediately upon its passage.

Subject: Approval of FY 20/21 Draft Audit

Background and Analysis:

Government Code Section 200.49 Generally Accepted Accounting Principles (GAAP) specific accounting standards issued by the Government Accounting Standards Board (GASB) the Financial Accounting Standards Board (FASB) these standards requires that the District have and annual audit.

Halliday & Company has performed our annual audits for the District, Halliday & Company auditors performed the annual audit for FY 2020-2021 ending June 30^{th} , 2021. From that review they sent our current "Draft" audit for FY 2020-2021 for your review.

The draft audit document will show an audited version of revenues, expenses, assets and beginning and ending balances for FY 2020-2021.

On Monday, June 6th, 2022 the draft audit was reviewed by the Finance Committee, Vice-Chair/Secretary Chris Diercks and Treasurer John Flores.

Fiscal Impact:

District approximated the Audit cost of \$30,000.00 for FY 20-21.

Recommendations:

Staff recommends that the Board review, comment and approve the draft audit for FY 2020-2021 ending June 30, 2021. Upon review and comments, the final audit will be placed on the July 2022 Board Agenda for approval.

Respectfully Submitted,

Beaumont-Cherry Valley Recreation and Park District

We have audited the accompanying financial statements of the governmental activities and each major fund of Beaumont-Cherry Valley Recreation and Park District (the District) as of and for the year ended June 30, 2021 and the related notes to the financial statements, which collectively comprise the District's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

HALLIDAY &COMPANY Board of Directors Beaumont-Cherry Valley Recreation and Park District Independent Auditor's Report Page 2

Opinion

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities and each major fund of the District as of June 30, 2021, and the respective changes in financial position thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Other Matters

Require Supplementary Information

Accounting principles generally accepted in the United States of America require that the information related to the pension and other postemployment benefits plans on pages 38 through 40 be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Management has omitted the management's discussion and analysis that accounting principles generally accepted in the United States of America require to be presented to supplement the basic financial statements. Such missing information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. Our opinion on the basic financial statements is not affected by this missing information.

Other Information

Our audit was conducted for the purpose of forming an opinion on the basic financial statements. The accompanying schedule of officers, directors, and senior management and insurance coverage on page 41 is presented for purposes of additional analysis and is not a required part of the basic financial statements. This schedule has not been subjected to auditing procedures applied in the audit of the basic financial statements and, accordingly, we do not express an opinion or provide any assurance on it.

NOTE 1 – REPORTING ENTITY

The Beaumont-Cherry Valley Recreation and Park District (the District) was established in June 1972 under the authority of the Government Code, Section 58132. The District operates under a board of directors to provide, manage, and maintain recreation and park facilities and activities for the Beaumont-Cherry Valley area of Riverside County, California, as a separate governmental entity. The District receives a majority of its income from the County of Riverside through property taxes. The Board of Directors has the power to determine fiscal, personnel, and administrative policy subject only to state law.

The District, for financial reporting purposes, includes all of the funds relevant to the operations of the District and is not included as a component unit in any other primary government's financial statements. In determining the entities which comprise the governmental entity for financial reporting purposes, the criteria of oversight responsibility over such entities, special financial relationships, and scope of public service provided by the entities are used. Oversight responsibility is determined by the extent of financial interdependence, control over the selection of the governing authority and management, ability to significantly influence operations, and accountability for fiscal matters.

The District and the Beaumont-Cherry Valley Recreation and Park Improvement Corporation (the Corporation) have a financial and operational relationship which meets the reporting entity definition criteria of the Government Accounting Standards Board (GASB) Statement No. 14 (GASB 14), The Financial Reporting Entity, as amended by GASB Statement No. 39 (GASB 39), Determining Whether Certain Organizations are Component Units, for inclusion of the Corporation as a component unit of the District. Accordingly, the financial activities of the Corporation are included in the financial statements of the District.

The following are those aspects of the relationship between the District and the Corporation which satisfy the GASB 39 criteria:

- A. The Corporation and the District share substantially the same board of directors and management.
- B. The District is able to impose its will upon the Corporation.

The Corporation is a nonprofit, public benefit corporation incorporated under the laws of the State of California and recorded by the Secretary of State on April 22, 1992. The Corporation was formed primarily to strengthen the resources of the District, improve the general public's knowledge concerning programs sponsored by the District, and distribute funds or property received by the Corporation to the District for the use and benefit of the District.

NOTE 2 – SIGNIFICANT ACCOUNTING POLICIES

The District's financial statements are prepared in accordance with accounting principles generally accepted in the United States of America (GAAP). GASB is responsible for establishing GAAP for state and local governments through its pronouncements (Statements and Interpretations). The more significant accounting policies established in GAAP and used by the District are discussed below.

Basic Financial Statements - Government-Wide Statements

The District's basic financial statements include both government-wide (reporting the District as a whole) and fund financial statements (reporting on the District's funds). Both the government-wide and fund financial statements categorize primary activities as governmental. The District's recreational program activities, development and maintenance of the District's various parks and facilities, and general administration are all classified as governmental activities.

In the government-wide statement of net position, the governmental activities are reported on a full accrual economic resource basis, which recognizes all long-term assets, deferred outflows of resources and receivables as well as long-term debt, deferred inflows of resources and obligations. The District's net position is reported in two parts: net investment in capital assets and unrestricted net position.

The government-wide statement of activities reports both the gross and net cost of each of the District's functions (recreation and foundation). The functions are also supported by general government revenues (property taxes, intergovernmental revenue, interest income, etc.). The statement of activities reduces gross expenses (including depreciation) by related program revenues, operating grants and contributions, which include 1) charges to customers or applicants who purchase, use or directly benefit from goods, services, or privileges provided by a given function or segment and 2) grants and contributions that are restricted to meeting the operational or capital requirements of a particular function or segment.

The net costs (by function) are normally covered by general revenue (property taxes, intergovernmental revenue, interest income, etc.).

As a general rule, the effect of interfund activity has been eliminated from the government-wide financial statements.

The government-wide focus is more on the sustainability of the District as an entity and the change in the District's net position resulting from the current year's activities.

NOTE 2 – SIGNIFICANT ACCOUNTING POLICIES (Continued)

Basic Financial Statements - Fund Financial Statements

The financial transactions of the District are reported in individual funds in the fund financial statements. Each fund is accounted for by providing a separate set of self-balancing accounts that comprise its assets, deferred outflows of resources, liabilities, deferred inflows of resources, fund equity, revenues and expenditures/expenses.

The emphasis in fund financial statements is on the major funds in the governmental activities category. GASB No. 34 set forth minimum criteria (percentage of the assets and deferred outflows of resources, liabilities and deferred inflows of resources, revenues or expenditures/expenses of either fund category or all governmental and enterprise funds combined) for the determination of major funds. The District only has two funds which are both considered major funds.

Governmental Funds:

The focus of the governmental fund's measurement (in the fund statements) is upon determination of financial position and changes in financial position (sources, uses, and balances of financial resources) rather than upon net income. The District reports two major governmental funds:

The general fund is the District's operating fund used to account for and report all financial resources for the recreation activity. The activity reported in this fund is reported as governmental activity in the government-wide financial statements.

The foundation fund is a special revenue fund used to account for the proceeds of specific revenues sources that are restricted to expenditures for specific purposes. The foundation fund's primary source of revenue is provided by fundraising events and donations. The foundation funds resources are intended to be used for park improvement projects.

Measurement Focus and Basis of Accounting

Measurement focus is a term used to describe "which" transactions are recorded within the various financial statements. Basis of accounting refers to "when" transactions are recorded regardless of the measurement focus applied.

On the government-wide statement of net position and the statement of activities, governmental activities are presented using the economic resources measurement focus as defined below. In the fund financial statements, the "current financial resources" measurement focus or the "economic resources" measurement focus is used as appropriate.

NOTE 2 – SIGNIFICANT ACCOUNTING POLICIES (Continued)

Measurement Focus and Basis of Accounting (Continued)

All governmental funds utilize a "current financial resources" measurement focus. Only current financial assets, deferred outflows of resources, liabilities, and deferred inflows of resources are generally included on their balance sheets. Their operating statements present sources and uses of available spendable financial resources during a given period. These funds use fund balance as their measure of available spendable financial resources at the end of the period.

The accounting objectives of the "economic resources" measurement focus are the determination of operating income, changes in net position (or cost of recovery), financial position, and cash flows. All assets, deferred outflows of resources, liabilities, and deferred inflows of resources (whether current or noncurrent) associated with their activities are reported.

In the government-wide statement of net position and statement of activities, governmental activities are presented using the accrual basis of accounting. Under the accrual basis of accounting, revenues are recognized when earned and expenses are recorded when the liability, deferred inflow of resources is incurred or economic asset used. Revenues, expenses, gains, losses, assets, deferred outflows of resources, liabilities, and deferred inflows of resources resulting from exchange and exchange-like transactions are recognized when the exchange takes place. Property taxes are recognized as revenues in the year for which they are levied. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been met.

In the fund financial statements, governmental funds are presented on the modified accrual basis of accounting. Under this modified accrual basis of accounting, revenues are recognized when "measurable and available." Measurable means knowing or being able to reasonably estimate the amount. Available means collectible within the current period or within sixty days after year end. The District recognizes property taxes when they become both measurable and available. A sixty-day available period is used for revenue recognition for all other governmental funds revenues. Expenditures are recorded when the related fund liability is incurred, as under accrual accounting, except expenditures related to debt service, compensated absences, claims and judgments, pensions, and other postemployment benefits, which are recognized when due. General capital asset acquisitions are reported as capital outlay expenditures in governmental funds.

In applying the susceptible to accrual concept under the modified accrual basis, those revenues susceptible to accrual are program service fees, property taxes, intergovernmental revenues, interest income, and grant income. All other revenue items are considered to be measurable and available only when cash is received by the government.

NOTE 2 - SIGNIFICANT ACCOUNTING POLICIES (Continued)

Cash and Cash Equivalents

For purposes of the statement of net position, the District considers cash and all highly liquid investments purchased with a maturity of three months or less to be cash equivalents. The District is a voluntary participant in the Riverside County Treasurer's Pooled Investment Fund (RCTPIF). Due to the high liquidity of this investment, the funds are classified as cash equivalents. The RCTPIF pools these funds with those of other entities and invests the cash as prescribed by the California Government Code. The fair value of the District's position in the pool approximates the fair value of the District's prorata share of the entire RCTPIF portfolio. The balance available for withdrawal is based on the accounting records maintained by RCTPIF, which are recorded on an amortized cost basis. There are no limitations on the withdrawal of these funds. For credit risk purposes, the fund is rated AAAf/S1.

Accounts Receivable

The District believes all accounts receivable are fully collectible and therefore no allowance for doubtful accounts is provided.

Interfund Receivables, Payables, and Activity

Interfund activity is reported as loans, reimbursements or transfers. Loans are reported as interfund receivables and payables as appropriate and are subject to elimination upon consolidation. Reimbursements are when one fund incurs a cost, charges the appropriate benefiting fund and reduces its related cost as a reimbursement. All other interfund transactions are treated as transfers.

Prepaids

Prepaids are valued at cost, which approximates market. Certain payments to vendors reflect costs applicable to future accounting periods and are recorded as prepaids in both the government-wide and fund financial statements.

Capital Assets

Capital assets acquired and/or constructed with an original cost of \$5,000 or more and an estimated useful life greater than one year, are recorded at historical cost. Donated capital assets are recorded at estimated acquisition value at the date of donation. Additions, improvements and other capital outlays that significantly extend the useful life of an asset are capitalized. Other costs incurred for repairs and maintenance that do not add to the value of the capital assets or materially extend the lives of capital assets are not capitalized. Upon retirement or other disposition of capital assets, the costs and related accumulated depreciation are removed from the respective balances and any gains or losses are recognized.

NOTE 2 – SIGNIFICANT ACCOUNTING POLICIES (Continued)

Capital Assets (Continued)

The cost of capital assets being constructed by the District are accumulated in capital assets non-depreciable within the government-wide financial statements during the construction period. Upon completion of construction and being placed into service, depreciation of the resulting asset is commenced.

Capital assets are depreciated using the straight-line method over the following estimated useful lives:

Life in

	25.	LHEIII
Type of Asset		Years
Buildings and infrastructure		25 - 40
Buildings and land improvements		15 - 20
Maintenance equipment and vehicles		5 - 15

Capital assets are reviewed for impairment whenever events or changes in circumstances indicate that the carrying amounts of the assets in question may not be recoverable. Impairment would be recorded in circumstances where undiscounted cash flows expected to be generated by an asset are less than the carrying value of the asset. As of June 30, 2021, no impairment was recognized as management expects to fully utilize the District's capital assets.

Deferred Outflows/Inflows of Resources

Deferred outflow/inflow of resources represents an increase/decrease of net position that applies to a future period and therefore will not be recognized as an outflow of resources (expense/expenditure)/inflow of resources (revenue) until that time.

Pension Accounting

For purposes of measuring the net pension liability, deferred outflows and inflows of resources related to pensions, and pension expense, information about the fiduciary net position of the District's California Public Employee's Retirement System (CalPERS) plans (Plans) and additions to/deductions from the Plans' fiduciary net position have been determined on the same basis as they are reported by CalPERS. For this purpose, benefit payments (including refunds of employee contributions) are recognized when currently due and payable in accordance with the benefit terms. Investments are reported at fair value.

NOTE 2 - SIGNIFICANT ACCOUNTING POLICIES (Continued)

Other Postemployment Benefits (OPEB)

For purposes of measuring the net OPEB liability, deferred outflows of resources and deferred inflows of resources, and OPEB expense, information about the fiduciary net position of the District's OPEB plan (the OPEB Plan) and additions to/deductions from the OPEB Plan's fiduciary net position have been determined on the same basis as reported by the OPEB Plan's administrator, CalPERS. For this purpose, benefit payments are recognized when due and payable in accordance with the benefit terms.

Compensated Absences

Compensated absences are absences for which employees will be paid, such as vacation and sick leave and accrued compensatory time. Employees are entitled to accumulate this time in accordance with the District's policies. Upon termination of employment for any reason, the District shall compensate the employee for their accumulated vacation and compensatory time at the employee's rate of pay at the time of termination. Sick time is not eligible for payout at termination per the District's policies.

A liability for compensated absences that is attributable to services already rendered and not contingent on a specific event outside the control of the government and its employees is accrued in the government-wide financial statements as employees earn the rights to the benefits. Compensated absences that relate to future services or that are contingent on a specific event that is outside the control of the government and its employees are accounted for in the period in which such services are rendered or such events take place.

Property Taxes

The County of Riverside Assessor's Office assesses all real and personal property within the County each year. The County of Riverside Tax Collector's Office bills and collects the District's share of property taxes and assessments. The County of Riverside Treasurer's Office remits current and delinquent property tax collections to the District throughout the year. Property tax in California is levied in accordance with Article 13A of the State Constitution at 1.0 percent of countywide assessed valuations.

NOTE 2 - SIGNIFICANT ACCOUNTING POLICIES (Continued)

Property Taxes (Continued)

Property taxes receivable at year-end are related to property taxes collected by the County of Riverside, which have not been credited to the District's cash balance as of June 30. The property tax calendar is as follows:

Lien date:

Levy date: Due date: On July 1 for July 1 to June 30 November 1 – 1st installment

February 1 - 2nd installment

Collection date:

December 10 – 1st installment April 10 – 2nd installment

Net Position

The government-wide statements utilize a net position presentation. Net position is categorized as net investment in capital assets and unrestricted net position. The District has no restricted net position.

Net investment in capital assets - This category groups all capital assets into one component of net position. Accumulated depreciation and the outstanding balances of debt (if any) that are attributable to the acquisition, construction, or improvement of these assets reduce the balance in this category.

Unrestricted net position - This category represents the net position of the District not restricted for any project or other purpose.

The District may fund outlays for a particular purpose from both restricted (e.g. restricted bond or grant proceeds) and unrestricted resources. In order to calculate the amounts to report as restricted net position and unrestricted net position in the statement of net position, a flow assumption must be made about the order in which the resources are considered to be applied. It is the District's policy to consider restricted net position to have been depleted before unrestricted net position.

Fund Balance

In fund financial statements, the government fund balance may be categorized as nonspendable, restricted, committed, assigned, and unassigned. As of June 30, 2021, the District's governmental fund balance was comprised entirely of unassigned amounts.

Fund balances in governmental funds are reported in classifications that comprise a hierarchy based primarily on the extent to which the District is bound to honor constraints on the specific purposes for which amounts in those funds can be spent. The District may fund outlays for a particular purpose from both restricted and unrestricted resources (the total of committed, assigned, and unassigned fund balance).

NOTE 2 – SIGNIFICANT ACCOUNTING POLICIES (Continued)

Fund Balance (Continued)

In order to calculate the amounts to report as restricted, committed, assigned, and unassigned fund balance in the governmental fund financial statements a flow assumption must be made about the order in which the resources are considered to be applied. It is the District's policy to consider restricted fund balance to have been depleted before using any of the components of unrestricted fund balance. Further, when the components of unrestricted fund balance can be used for the same purpose, committed fund balance is depleted first, followed by assigned fund balance. Unassigned fund balance is applied last.

The following classifications describe the relative strength of the spending constraints placed on the purposes for which resources can be used:

Nonspendable Fund Balance - Amounts that cannot be spent either because they are in nonspendable form or are required to be maintained intact.

Restricted Fund Balance - Amounts that are constrained to specific purposes by state or federal laws, or externally imposed conditions by grantors or creditors.

Committed Fund Balance - Amounts that may be specified by the Board of Directors by ordinance or resolution to formally commit part of the fund balance or future revenues for a specific purpose(s) or program. To change or repeal any such commitment will require an additional formal Board of Director's action utilizing the same type of action that was originally used.

Assigned Fund Balance - Amounts that are constrained by the Board's intent to use specified financial resources for specific purposes, but are neither restricted nor committed. The District's fund balance policy delegates the authority to assign amounts to be used for specific purposes to the General Manager.

Unassigned Fund Balance - These are either residual positive net resources in excess of what can properly be classified in one of the other four categories, or negative balances.

Budgetary Policies

The District adopts an annual nonappropriated budget for planning, control, and evaluation purposes for the general fund. A legal budget is neither required nor adopted. Therefore, these financial statements do not include budget and actual comparisons.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the amounts reported in the financial statements and disclosures made in the accompanying notes to the financial statements. While management believes these estimates are adequate, actual results could differ from those estimates.

NOTE 2 - SIGNIFICANT ACCOUNTING POLICIES (Continued)

New Accounting Pronouncements

The Governmental Accounting Standards Board (GASB) has issued the below statements which may affect the District's financial reporting requirements in the future. The District is currently evaluating its accounting practices to determine the potential impact that these statements will have on the District's the financial statements.

In June 2017, GASB issued Statement No. 87, Leases, which addresses new accounting and financial reporting requirements for leases, improving accounting and financial reporting for leases for governments. Leases that were previously classified as operating leases and recognized as inflows of resources or outflows of resources based on the payment provisions of the contract will be recognized as a lease liability and an intangible right-to-use lease asset for lessees and a lease receivable and a deferred inflow of resources for a lessor. As deferred by GASB Statement No. 95, Postponement of the Effective Dates of Certain Authoritative Guidance, the requirements of this Statement are effective for fiscal years beginning after June 15, 2021.

In June 2020, GASB issued Statement No. 97, Certain Component Unit Criteria, and Accounting and Financial Reporting for Internal Revenue Code Section 457 Deferred Compensation plans, which requires that a Section 457 plan be classified as either a pension plan or an other employee benefit plan depending on whether the plan meets the definition of a pension plan and clarifies that Statement 84, as amended, should be applied to all arrangements organized under IRC section 457 to determine whether those arrangements should be reported as fiduciary activities. The requirements for this statement are effective for reporting periods beginning after June 15, 2021.

Recently Adopted Accounting Pronouncements

On July 1, 2020, the District early adopted, as allowed, GASB Statement No. 89, Accounting for Interest Cost Incurred Before the End of a Construction Period, which requires that interest cost incurred before the end of a construction period be recognized as an expense in the period in which the cost is incurred for financial statements prepared using the economic resources measurement focus. The requirements of this statement are to be applied prospectively from the date of adoption. The District does not anticipate that this statement will have a significant impact on any given period; however, the cumulative impact over multiple years is anticipated to be significant.

The District has determined that there have been no other recently adopted or issued accounting pronouncements that had, or potentially will have, a material impact on its financial statements.

Reclassifications

Certain prior year amounts have been reclassified to conform with current year presentation. These reclassifications had no impact on prior periods' results.

NOTE 3 - CASH AND CASH EQUIVALENTS

For purposes of the following discussion, cash and cash equivalents have been classified as follows as of June 30, 2021:

Petty cash	\$ 500
Deposits in financial institutions	541,809
Riverside County Treasurer's Pooled Investment Fund	1,301,496
	\$ 1,843,805

Investments Authorized by the District's Investment Policy

The District's investment policy authorizes investment in the RCTPIF. The District's investment policy does not contain specific provisions intended to limit the District's exposure to interest rate risk, credit risk, and concentration of credit risk.

Credit Risk and Custodial Credit Risk

Generally, credit risk is the risk that an issuer of an investment will not fulfill its obligation to the holder of the investment. This is measured by the assignment of a rating by a nationally recognized statistical rating organization. The RCTPIF is rated AAAF/S1. Investments in the RCTPIF are highly liquid assets and are secured by the full faith and credit of Riverside County.

Custodial credit risk for deposits is the risk that, in the event of the failure of a depository financial institution, a government will not be able to recover its deposits or will not be able to recover collateral securities that are in the possession of an outside party. Custodial credit risk for investments is the risk that, in the event of the failure of the counterparty to a transaction, a government will not be able to recover the value of its investment or collateral securities that are in the possession of another party.

The California Government Code and the District's investment policy do not contain legal or policy requirements that would limit the exposure to custodial credit risk for deposits or investments, other than the following provision for deposits: the California Government Code requires that a financial institution secure deposits made by state or local governmental units by pledging securities in an undivided collateral pool held by a depository regulated under state law (unless so waived by the governmental unit). The market value of the pledged securities in the collateral pool must equal at least 110 percent of the total amount deposited by the public agencies. California law also allows financial institutions to secure District deposits by pledging first trust deed mortgage notes having a value of 150 percent of the secured public deposits.

As of June 30, 2021, \$291,809 of the District's total bank balance was not insured by the Federal Deposit Insurance Corporation (FDIC); however, this amount was collateralized as described above by securities held by the bank in a public funds collateral pool, not specifically in the District's name.

NOTE 4 - CAPITAL ASSETS

Capital assets activity for the year ended June 30, 2021 was as follows:

	Beginning Balance	Additions	Deletions	Ending Balance

All depreciation expense was charged to recreation activities as the foundation fund does not have any depreciable capital assets.

In December 2020, the District received a donation of approximately 123 acres of land from a private party. The donated land is located in Cherry Valley of Riverside County and at the time of donation held an appraised value of \$8,325,000.

NOTE 5 - LONG-TERM LIABILITIES

Long-term liabilities activity for the year ended June 30, 2021 was as follows:

NOTE 6 - PENSION PLAN

General Information About the Pension Plan

Plan Description

All qualified District employees are required to participate in the District's Miscellaneous Plan (the Plan), a cost-sharing multiple-employer defined benefit pension plan administered by CalPERS, unless they specifically opt out. CalPERS acts as a common investment and administrative agent for participating public entities within the State of California. A menu of benefit provisions as well as other requirements are established by State statutes within the Public Employee's Retirement Law. The District selects optional benefit provisions from the benefit menu by contract with CalPERS and adopts those benefits through Board approval. CalPERS issues publicly available reports that include a full description of the pension plan regarding benefit provisions, assumptions, membership, and financial information that can be found on the CalPERS website at www.calpers.ca.gov.

Benefits Provided

CalPERS provides retirement and disability benefits, annual cost-of-living adjustments, and death benefits to plan members and beneficiaries. Benefits are based on year of credited service, with one year of credited service being equal to one year of full-time employment. All members are eligible for standard non-industrial disability benefits after five years of service. The District has chosen the Optional Settlement 2W Death Benefit.

Contribution Description

Section 20814(c) of the California Public Employees' Retirement Law (PERL) requires that the employer contribution rates for all public employers be determined on an annual basis by the actuary and shall be effective on the July 1 following notice of a change in the rate. The total plan contributions are determined through CalPERS' annual actuarial valuation process. The actuarially determined rate is the estimated amount necessary to finance any unfunded accrued costs of benefits earned by employees during the year, with an additional amount to finance any unfunded accrued liability. The District is required to contribute the difference between the actuarially determined rate and the contribution rate of employees. The District's total employer contributions were \$125,301 for the year ended June 30, 2021.

NOTE 6 - PENSION PLAN (Continued)

General Information About the Pension Plan (Continued)

Contribution Description (Continued)

Active plan members who were hired before January 1, 2013 are referred to as "Classic" employees. Beginning January 1, 2013, the District established two classes of employees, as dictated by the newly enacted Public Employees Pension Reform Act (PEPRA).

The plan's provisions and benefits in effect at June 30, 2021 are summarized as follows:

	Miscellar	neous
	Hire date prior	Hire date in or

^{*} For employees that were hired on or after January 1, 2013, were already members of CalPERS prior to January 1, 2013, and had less than a six month break in service, the benefit formula is 2.0% at 55, the required employee contribution rate was 7.00%, and the required employer contribution rate was 10.484% + \$157/month. All other plan provisions and benefits are the same as those for other employees hired on or after January 1, 2013.

Actuarial Methods and Assumptions Used to Determine Total Pension Liability

Methods and Assumptions

The actuarial methods and assumptions used are those adopted by the CalPERS Board of Administration. For the measurement period ending June 30, 2020 (the measurement date), the total pension liability was determined by rolling forward the total pension liability determined in the June 30, 2019 actuarial accounting valuation. The June 30, 2020 total pension liability was based on the following actuarial methods and assumptions:

Actuarial cost method Entry age normal in accordance with the requirements of

GASB Statement No. 68

Actuarial assumptions:

Discount rate 7.15% Inflation 2.50%

Salary increases Varies by entry age and service

Mortality rate table*
Post-retirement benefit

ost-retirement benefit increase Derived using CalPERS' membership data for all funds Contract COLA up to 2.50% percent until purchasing power protection allowance floor on purchasing power

applies.

Long-term Expected Rate of Return

The long-term expected rate of return on pension plan investments was determined using a building-block method in which expected future real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class.

^{*} The mortality table used was developed based on CalPERS' specific data. The table includes 15 years of mortality improvements using Society of Actuaries Scale 90% of scale MP 2016. For more details on this table, please refer to the December 2017 CalPERS experience study report (based on CalPERS demographic data from 1997 to 2015) that can be found on the CalPERS website.

NOTE 6 - PENSION PLAN (Continued)

Actuarial Methods and Assumptions Used to Determine Total Pension Liability (Continued)

Long-term Expected Rate of Return (Continued)

In determining the long-term expected rate of return, CalPERS took into account both short-term and long-term market return expectations as well as the expected pension fund cash flows. Using historical returns of all of the funds' asset classes, expected compound (geometric) returns were calculated over the short-term (first 10 years) and the long-term (11+ years) using a building-block approach. Using the expected nominal returns for both short-term and long-term, the present value of benefits was calculated for each fund. The expected rate of return was set by calculating the rounded single equivalent expected return that arrived at the same present value of benefits for cash flows as the one calculated using both short-term and long-term returns. The expected rate of return was then set equal to the single equivalent rate calculated above and adjusted to account for assumed administrative expenses.

The table below reflects long-term expected real rate of return by asset class.

	Asset	Real F	Return
Asset Class*	Allocation	Years 1-10**	Years 11+***
Global equity	50%	4.80%	5.98%
Fixed income	28%	1.00%	2.62%
Inflation assets	-	.77%	1.81%
Private equity	8%	6.30%	7.23%
Real assets	13%	3.75%	4.93%
Liquidity	1%	-	(0.92)%
Total	100%		

^{*} In CalPERS's CAFR, fixed income is included in global debt securities; liquidity is included in short-term investments; inflation assets are included in both global equity securities and global debt securities.

^{**} An expected inflation of 2.00% used for this period.

^{***} An expected inflation of 2.92% used for this period.

NOTE 6 - PENSION PLAN (Continued)

Actuarial Methods and Assumptions Used to Determine Total Pension Liability (Continued)

Discount Rate

The discount rate used to measure the total pension liability for PERF C was 7.15%. The projection of cash flows used to determine the discount rate assumed that contributions from plan members will be made at the current member contribution rates and that contributions from employers will be made at statutorily required rates, actuarially determined. Based on those assumptions, the Plan's fiduciary net position was projected to be available to make all projected future benefit payments of current plan members. Therefore, the long-term expected rate of return on plan investments was applied to all periods of projected benefit payments to determine the total pension liability.

Changes in the Net Pension Liability

Sensitivity of the Net Pension Liability to Changes in the Discount Rate

The following presents the net pension liability of the Plan as of June 30, 2020 measurement date, calculated using the discount rate in effect at year-end. The table shows what the net pension liability would be if it were calculated using a discount rate that is 1.0 percentage-point lower or 1.0 percentage-point higher than the current rate:

		6.15%	7.15%	8.15%
Net pension liability	\$	1,211,896	\$ 798,465	\$ 456,860

Detailed information about each pension plan's fiduciary net position is available in the separately issued CalPERS financial report.

Amortization of Deferred Outflows and Deferred Inflows of Resources

Under GASB 68, actuarial gains and losses related to changes in total pension liability and fiduciary net position are recognized in pension expense systematically over time.

The first amortized amounts are recognized in pension expense for the year the gain or loss occurs. The remaining amounts are categorized as deferred outflows and deferred inflows of resources related to pensions and are to be recognized in future pension expense.

The amortization period differs depending on the source of the gain or loss:

Difference between projected and actual earnings on pension plan investments

5 year straight-line amortization

All other amounts

3.8 year straight-line amortization

Pension Related Liabilities, Expense, and Deferred Outflows/Deferred Inflows of Resources

The District's net pension liability for the Plan is measured as the proportionate share of the net pension liability. The net pension liability of the Plan is measured as of June 30, 2020, and the total pension liability for the Plan used to calculate the net pension liability was determined by an actuarial valuation as of June 30, 2019 rolled forward to June 30, 2020 using standard update procedures. The District's proportion of the net pension liability was based on a projection of the District's long-term share of contributions to the pension plan relative to the projected contributions of all participating employers, actuarially determined. The District's proportionate share of the net pension liability as of June 30, 2020 measurement date was 0.019%. This represents an increase in the percentage of 0.00046 since the prior measurement date.

NOTE 6 - PENSION PLAN (Continued)

Pension Related Liabilities, Expense, and Deferred Outflows/Deferred Inflows of Resources (Continued)

For the year ended June 30, 2021, the District recognized pension expense of \$167,589. At June 30, 2021, the District deferred outflows and inflows of resources related to pensions as follows:

.

	Deferred	Deferred
	Outflows of	Inflows of
Governmental activities:	Resources	Resources
Pension contributions subsequent to measurement \$	*	\$
date	125,301	-

The amounts above are net of outflows and inflows recognized in the pension expense for the year ended June 30, 2021. The \$125,301 reported as deferred outflows of resources related to contributions subsequent to the measurement date will be recognized as a reduction of the net pension liability in the fiscal year ended June 30, 2022.

Other amounts reported as deferred outflows of resources and deferred inflows of resources related to pensions will be recognized in future pension expense as follows:

Year Ending

NOTE 7 - POSTEMPLOYMENT BENEFITS OTHER THAN PENSIONS (OPEB)

General Information About the OPEB Plan

Plan Description

The District has established a Retiree Healthcare Plan and participates in the California Employer's Retiree Benefit Trust (CERBT), an agent multiple-employer defined benefit postemployment healthcare plan administered by CalPERS. The CERBT is an Internal Revenue Code Section 115 trust and an investment vehicle that can be used by all California public employers to prefund future retiree healthcare and other postemployment benefits costs.

Benefits Provided

The OPEB Plan provides postemployment healthcare benefits through a third-party insurer to employees who retire from the District on or after age 50 and have at least 10 years of service. The District pays a portion of the retiree's health premiums for eligible retirees range from 50% at 10 years of service up to 100% at 25 years of service. The District's board of directors has the authority to establish and amend the benefit terms.

Employees Covered

As of the June 30, 2020 actuarial valuation, the following current and former employees were covered by the benefit terms:

Inactive employee	es or b <mark>eneficia</mark> ries	currently receiving benefit paym	ents 1
Active employees			14
Total			15

Contributions

The District's board of directors establishes and amends the contribution requirements for the OPEB Plan. The District pays a portion of retiree benefit expenses on a pay-as-you-go basis to third parties, outside of CERBT, and makes additional contributions to CERBT to prefund benefits as determined by the District's board of directors annually. For the year ended June 30, 2021, the District's contributed \$5,021 to the OPEB Plan, of which \$5,021 was used for current retiree healthcare premiums and \$0 was used to prefund benefits.

Net OPEB Liability

The District's net OPEB liability (asset) was measured as of June 30, 2020 and the total OPEB liability used to calculate the net OPEB liability was determined by an actuarial valuation as June 30, 2020.

NOTE 7 - POSTEMPLOYMENT BENEFITS OTHER THAN PENSIONS (OPEB) (Continued)

Net OPEB Liability (Continued)

Actuarial Assumptions

The total OPEB liability in the June 30, 2020 actuarial valuation was determined using the following actuarial assumptions, applied to all periods included in the measurement, unless otherwise specified:

Actuarial cost method	Entry age normal
Inflation	2.75%
Salary increases	2.75% per year
Investment rate of return	7.00% net of expenses
Healthcare cost trend rates	4.00% per year
Mortality rates	Based on the 2014 CalPERS mortality rates for
	Miscellaneous Employees experience studies.
Retirement rates	Based on the 2009 CalPERS retirement rates for
	miscellaneous employees experience studies.
Turnover rates	Based on the 2009 CalPERS turnover rates for
	miscellaneous employees experience studies.

The long-term expected rate of return on OPEB plan investments was determined using a building-block method in which best-estimate ranges of expected future real rates of return (expected returns, net of OPEB plan investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation.

The target allocation and best estimates of arithmetic real rates of return for each major asset class are summarized as follows:

Asset Class	Target Allocation	Long-term Expected Real Rate of Return
Equity	59%	7.795%
Fixed income	25%	4.500%
Real Estate Investment Trusts	8%	7.500%
Treasury Inflation-Protected Securities	5%	3.250%
Commodities **	3%	7.795%
Total	100%	•

NOTE 7 - POSTEMPLOYMENT BENEFITS OTHER THAN PENSIONS (OPEB) (Continued)

Net OPEB Liability (Continued)

Rolling periods of time for all asset classes in combination were used to appropriately reflect correlation between asset classes. This means that the average returns for any asset class do not necessarily reflect the averages over time individually but reflect the return for the asset class for the portfolio average. Additionally, the historic 38-year real rates of return for each asset class along with the assumed long-term inflation assumption was used to set the discount rate. The investment return was offset by assumed investment expenses of 25 basis points.

Discount Rate

The discount rate used to measure the total OPEB liability was 7.0 percent. The projection of cash flows used to determine the discount rate assumed that the District contributions will be made at rates sufficient to fully fund the obligation over a period not to exceed 38 years. Based on those assumptions, the OPEB plan's fiduciary net position was projected to be available to make all projected OPEB payments for current active and inactive employees. Therefore, the long-term expected rate of return on OPEB plan investments was applied to all periods of projected benefit payments to determine the total OPEB liability.

NOTE 8 - LEASE ASSIGNMENT

The District assigned its rights under a lease agreement to a third-party for a lease under which a small portion of the District's land is utilized by a lessor for a communications antenna facility. The District received a lumpsum in exchange for the lease assignment and the third-party will collect future rent payments made by the lessor in accordance with the original lease. The lease assignment agreement commenced in December of 2019 and has a twenty-five-year term. The lumpsum has been recorded as a deferred inflow of resources and will be recognized as revenue on a straight-line basis over the term of the lease assignment agreement. Future revenue recognition under this agreement will be as follows:

NOTE 9 - JOINT VENTURES

The District participates in a joint venture under a joint powers agreement (JPA) with the California Association for Park and Recreation Indemnity (CAPRI). The relationship between the District and the JPA is such that the JPA is not a component unit of the District for financial reporting purposes. Audited financial statements are available by contacting CAPRI at 1075 Creekside Ridge Drive, Suite 240, Roseville, California 956278.

CAPRI provides insurance coverages, risk management, safety and loss prevention services to its many member districts through a risk-sharing pool. CAPRI is governed by a 7 member board of directors comprised primarily of representatives of the member districts. The board controls the operations of the JPA, including selection of management and approval of operating budgets, independent of any influence by the member districts beyond their representation on the board.

NOTE 9 - JOINT VENTURES (Continued)

CAPRI's audited financial statements for the year ending June 30, 2021 were not yet issued as of the issuance date of these financial statements. Condensed non-audited financial information for CAPRI for the year ended June 30, 2021 is as follows:

Insurance Coverage

The District's insurance provider is the California Association for Park and Recreation Indemnity (CAPRI). Coverage carried by the District includes bodily injury, personal injury, advertising injury, property damage, and public official and employee liability which may occur anywhere in the world. The insurance provides coverage up to \$1,000,000 per occurrence for the following:

Property Damage - The deductible for general property damage is \$2,000 per occurrence. For earthquake damage the deductible is \$50,000 per occurrence or 5% of the value of the building, contents, and/or structure damage, whichever is greater. For flood damage the deductible is \$20,000 per occurrence.

Employment Practices, Bodily Injury, Personal Injury, Public Officials Errors and Omissions Liability – These items are subject to a \$20,000 deductible. The deductible is reduced to \$5,000 if the District follows guidelines set by CAPRI, such as consulting with the District's general counsel.

Crime – The deductible for employee theft is \$15,000 per occurrence. The deductible for forgery, theft of money, robbery, computer fraud, funds transfer fraud, and counterfeit money is \$5,000 per occurrence.

The District has a worker's compensation policy with employer liability coverage per occurrence that meets the statutory requirements and covers all employees.

Staff Report

Agenda Item No. 3.3

To:

Board of Directors:

From:

Nancy Law, Financial Services Technician/Office Manager

Via:

Duane Burk, General Manager

Date:

June 11th, 2022

Subject: Approval of FY 22/23 & 23/24 Budget

Background and Analysis:

Each year starting in March staff along with the finance committee meets to review current year spending and budget projections for the upcoming years. All departments were asked to provide input to determine their requests for the upcoming fiscal years.

Fiscal Impact:

There will be no fiscal impact for the District.

Recommendations:

Staff and Finance Committee (Vice Chair/Secretary, Chris Diercks and Treasurer, John Flores) recommend that the Board review, comment and adopt the Budget for FY 22/23 and 23/24.

Respectfully Submitted,

Nancy Law

Report:

Good Evening Board,

I hope everyone is adapting to the rising temperatures. Staff has been doing a great job keeping up with the ongoing activities and we are looking forward the upcoming projects and events.

Here are a few items the Maintenance Department has been working on.

Work Items:

- Staff has been working up at Bogart Park knocking down and spraying weeds.
- Staff assisted in setting up and tearing down the District's stage during the Avila Memorial Horseshoe Tournament.
- Staff also assisted in setting up and tearing down the stage and dining area for the first Market in the Park event this year.
- The stage was used during the Closing Ceremonies for BYBSB.
- 10 trees were planted near the pond in the Bogart Day Use Area.
- The new structures in the Bogart Day Use Area have had their footings poured and the roofs have been installed.
- Staff has been fixing all of the infield sprinklers systems for the baseball fields.
- Our pest abatement program has been going well and staff has been doing a great job reducing the number of rodents in the turf and grounds.
- Alfonzo's Tree Service went through and trimmed up the over grown trees and shrubs in the Franco Gardens.
- I officially graduated from College of the Desert on May 25th, 2022 with an Associates of Science Degree in Turf Management.

Department Report

To:

Chairman and Board of Directors

From:

Dodie Carlson, Athletic Coordinator

Date:

June 1, 2022

Reports:

The spring season started is finishing this month and we will be starting the summer season after the July 4th holiday. Monday women's has concluded and the winners were Cut a Pitch. The remaining nights will be played out over the following weeks.

I am exploring the possibilities of running an adult kick ball league this summer in addition to our slow pitch. I have had requests for it from time to time. I feel it would be a great thing to offer during the summer month's as that is when we have the least amount of use on the fields. It will depend on if we have any full park closures or the field availability after the field rentals are all in.

The calendar remains very slow due the lack of staff for tournaments. Hopefully we can get some help as things start to loosen up.

I would like to thank the Board of Directors, General Manager, and staff for their constant work for this district. I would like to thank the maintenance staff for their constant work on field improvements, while they continue to battle the gophers and squirrels. The fields are improving every week.

Other:

BYB would like to thank Chris Diercks for attending closing day and handing out the MVP awards sponsored by the district. The league and players are very appreciative. BYB will start fall ball registrations in August 2022
